

Priscilla & Malcolm

After singing happy birthday to Priscilla, Malcolm got down on one knee beside her and proposed in front of their family and friends. The couple's ceremony took place at the entrance to the scented gardens at Sir James Mitchell Park in South Perth. River views and beautiful weather made for a perfect ceremony, before the congregation travelled to Pagoda Resort & Spa for the reception. The space was styled to a luxe, romantic theme with pops of burgundy throughout. Priscilla wore a mermaid-style gown, which featured detachable off-the-shoulder straps. She also paired her gown with a chapel-length veil that had embroidered edging and crystal details. The couple had the time of their lives celebrating their special day in ways that were true to their own unique personalities. Their guests laughed, cried and danced the night away as they enjoyed the raw emotion of the affair. Straying from tradition, Priscilla and Malcolm instead chose to use their honeymoon as a chance to celebrate their one-year anniversary overseas, which was spent travelling across Canada and the United States at the beginning of this year.

“Remember that the day is about celebrating the love between you and your soulmate.”
